DRINKING WATER NOTICE

Monitoring Requirements Not Met:
PWSID#1121343
Grimmel Complex (Dance Studio)
3036 Churchville Road, Churchville, MD 21028

We violated a public drinking water standard. Even though this was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

*We are required to monitor your drinking water for specific contaminants on regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **YEAR 2016** we did not complete all monitoring for bacteria and therefore cannot be sure of the quality of our drinking water during that time.*

What This Means

There is nothing you need to do at this time. The table below lists the contaminant(s) we did not properly test for, how often we are supposed to sample for it and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
Bacteria	Quarterly	None for 3rd quarter (07/01/16 to 09/30/16)	By 09/30/2016	As soon as possible.

Steps We Are Taking

We are posting this notice, and will complete the required 1st Quarter sampling for bacteria by March 31, 2017 for Year 2017. For more information, please contact Jack Grimmel of Grimmel Complex at 410-591-2593 or at the above referenced location. Please note this is the **second** consecutive quarter that we failed to complete the required monitoring.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

State Water System ID # 1121343 Date Distributed February 13, 2017
