## Communicable Disease

### WHO WE ARE

The Communicable Disease Surveillance and Control (CDSC) program focuses on preventing or limiting the spread of communicable diseases. This is achieved through disease surveillance, case investigation, contact follow-up and implementation of control measures when necessary.

### WHAT WE DO

- Reportable Disease Investigation and Control
- Disease Outbreak Control
- Child and Adult Immunizations
- Sexually Transmitted Infection Screening and Treatment
- Tuberculosis Control
- Human Rabies Investigation and Referrals
- Perinatal Hepatitis B Case Management
- Refugee and Migrant Health Case Management
- Employee Health and Infection Control

## Children Services

**Immunizations** are offered by appointment through the Vaccine for Children (VFC) program to uninsured or underinsured children, ages 2 months through 18 years.

## Adult and Adolescent Services

Confidential **Sexual Transmitted Infection Screening and Treatment Clinic** is held every Wednesday morning 8:00 AM to 11:00 AM.

No appointment necessary.

There may be a fee for services.

**Immunizations** for adults are offered by appointment only.

## Additional Information

**Immunization clinics** are held on Tuesdays by appointment only at the Harford County Health Department's Edgewood location.

- Clinics on the first and second Tuesday of the month are held from 9:00 AM to 11:00 AM.
- Clinics on the third and fourth Tuesday of the month are held from 3:00 PM to 5:30 PM.

Call 410-612-1774 for an appointment.

There is a \$15 administration fee per visit for each child and a \$30 administration fee per visit for any adult receiving any vaccine. Vaccine prices for adults are subject to change. Please call for current vaccine prices.

As per Maryland law, Medical Assistance clients will not be charged an administration fee with proof of Medical Assistance coverage.
