

MARYLAND Department of Health

Larry Hogan, Governor · Boyd Rutherford, Lt. Governor · Dennis Schrader, Secretary

Dear Colleagues:

The State is anticipating the start-up of the Maryland Primary Care Program in the summer of 2018, pending federal approval. In advance of the start of this program we would like to afford every opportunity to the healthcare community to gain an understanding of this important innovation.

We are looking forward to scheduling regional meetings starting in early November to introduce providers and practices to the Maryland Primary Care Program. The meetings will provide in-depth discussion of the program and address questions specific to each area of the state. The State will plan on presenting general program design information in these meetings, but also, preview:

- The Request for Application,
- Planned CRISP engagement,
- Other key areas of the Program

Please indicate your interest in attending a meeting by registering for your preferred date/region below:
