FROM: Leonard W. Walinski, LEHS, Program Manager
LW
Harford County Health Department

DATE: March 12, 2021

RE: CLOSE OF THE 2021 WET SEASON PERCOLATION
TEST PERIOD

Effective 5:00 PM March 19, 2021, this office will not accept any new wet soil percolation applications for the 2021 wet season. The Department will schedule all applications received and date-stamped by March 19, 2021. The closure is due to groundwater levels trending downward in our network of monitoring wells.

The Department is aware that these measures will result in delays in future projects. Ultimately, the viability of each lot or site to provide a safe and adequate on-site disposal system over the long term is the objective of the Health Department.
