From: Leonard W. Walinski, LEHS^{yww}
Program Manager
Land and Water Resources Division

Re: Wet Season Soil Testing Applications

Date: March 22, 2024

Due to the high volume of applications received this year, and below average precipitation recently, effective March 29, 2024 this office will NOT accept any new soil percolation applications for the 2024 Spring Wet Season. Any project requiring Wet Season evaluation must be submitted by 5:00PM on March 29, 2024. Otherwise, 2024 Spring Wet Season testing will not be guaranteed.

Ultimately, the long-term suitability of each lot or site to provide a safe and adequate on-site sewage disposal system is the objective of this office.
